## *WEB SCRAPING PROJECT ON PUMA OUTLET*

---

### **Project for Python Module**

#### **AIM:**

*The primary aim of this project is to offer exclusive discounts on Puma shoes, enhancing brand visibility, and driving customer engagement. By providing our customers with special access to high-quality Puma footwear at a reduced price, we aim to create a win-win scenario for both parties involved.*

## **DESCRIPTIONS:**

*Welcome to the Puma shoes Outlet web scrapping project involves extracting data from websites. This data can be used for various purposes ,outlet saving are the part of the shopping experience enjoy year-around discounts on preminium product, such as data analysis, research, reporting, or populating databases. We are going to use puma shoes to scrape site. To do so, we are going to use tools like Python, Requests, BeautifulSoup.*

## **Purposes:**

*The project will involve the promotion and sale of Puma shoes through our platform. We plan to implement a targeted marketing strategy to reach a wide audience and generate interest in the discounted Puma products. Our platform will serve as the central hub for customers to explore the curated selection of Puma shoes and take advantage of the exclusive discounts.*

## **Outline:**

*From this site, we are going to grab the following information:*

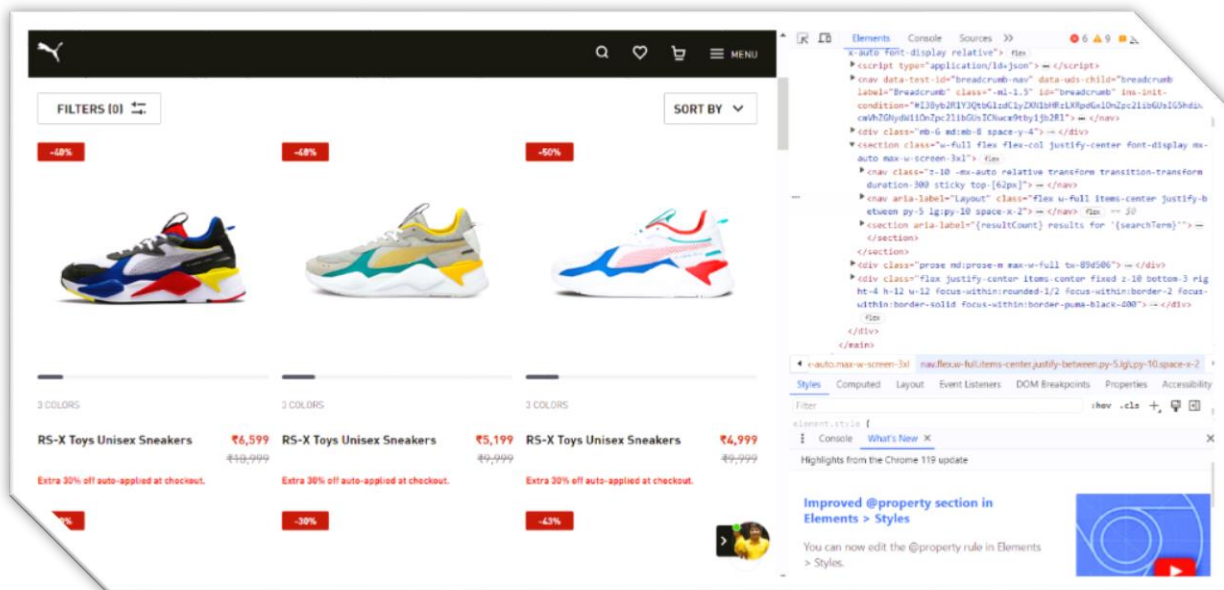

## **steps:**

- 1. Product Name.*
- 2. Orignal Price.*
- 3. Discounted Price.*
- 4. Discount Price.*

## **Choose the Website and Webpage URL:**

*The first step is to select the website you want to scrape. We will try to extract data on puma shoes outlet on the website.*

## Send a Request to the Puma Shoes Page:

## Write the Python source code:

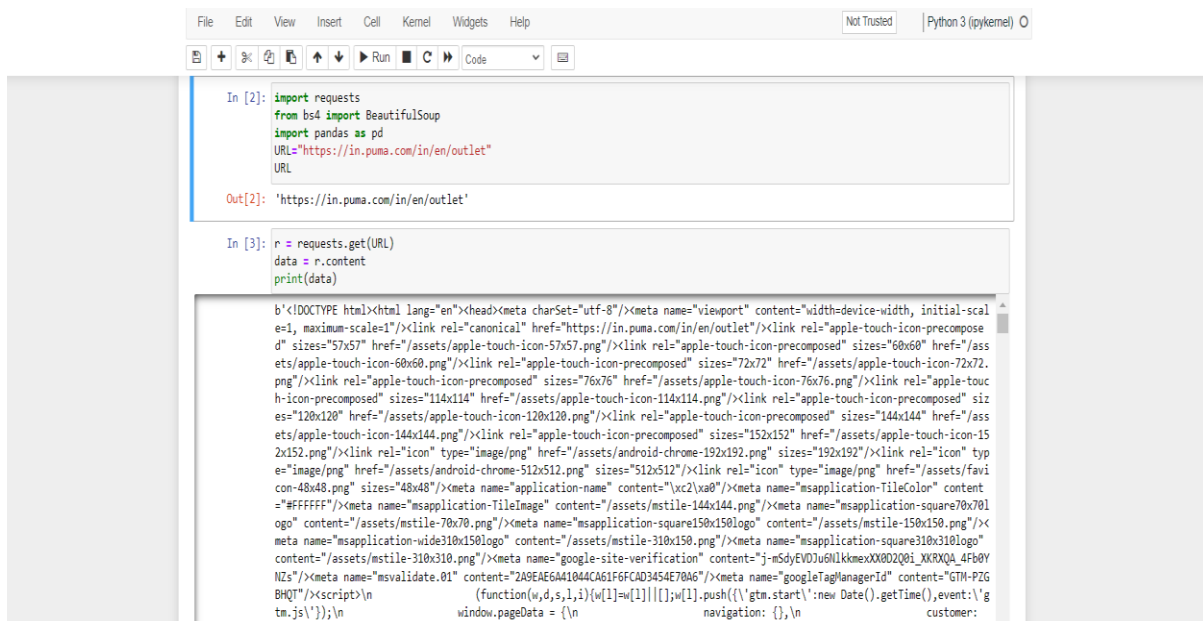

*The code will perform the following steps:*

- *Using requests to send an HTTP GET requests*
- *Using BeautifulSoup to parse the HTML code*
- *Extracting the required data from the HTML code*
- *Store the information in a pandas data frame*

## Exporting the extracted data

*We'll export the data as a CSV file. We will use the pandas library. We'll use the pandas library.*

# 1. Puma shoes outlet web scraping coding command steps:

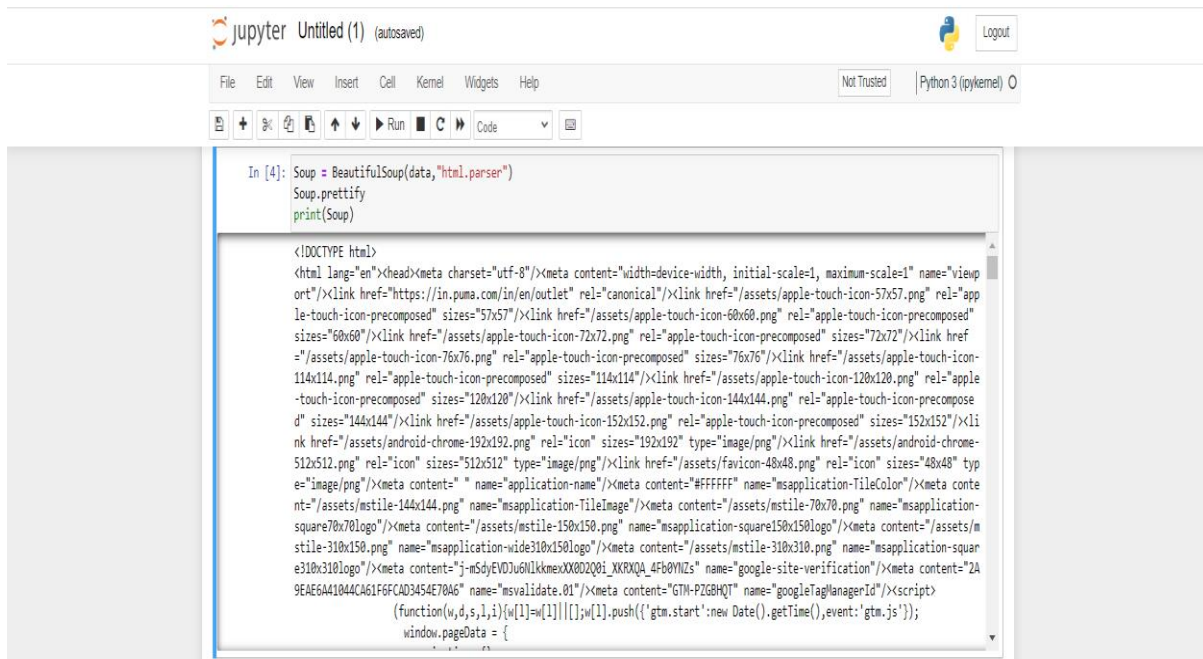

```
In [2]: import requests
from bs4 import BeautifulSoup
import pandas as pd
URL="https://in.puma.com/in/en/outlet"
URL

Out[2]: 'https://in.puma.com/in/en/outlet'

In [3]: r = requests.get(URL)
data = r.content
print(data)

b'<!DOCTYPE html><html lang="en"><head><meta charset="utf-8"><meta name="viewport" content="width=device-width, initial-scale=1, maximum-scale=1"><link rel="canonical" href="https://in.puma.com/in/en/outlet"><link rel="apple-touch-icon-precomposed" sizes="57x57" href="/assets/apple-touch-icon-57x57.png"><link rel="apple-touch-icon-precomposed" sizes="60x60" href="/assets/apple-touch-icon-60x60.png"><link rel="apple-touch-icon-precomposed" sizes="72x72" href="/assets/apple-touch-icon-72x72.png"><link rel="apple-touch-icon-precomposed" sizes="76x76" href="/assets/apple-touch-icon-76x76.png"><link rel="apple-touch-icon-precomposed" sizes="114x114" href="/assets/apple-touch-icon-114x114.png"><link rel="apple-touch-icon-precomposed" sizes="120x120" href="/assets/apple-touch-icon-120x120.png"><link rel="apple-touch-icon-precomposed" sizes="144x144" href="/assets/apple-touch-icon-144x144.png"><link rel="apple-touch-icon-precomposed" sizes="152x152" href="/assets/apple-touch-icon-152x152.png"><link rel="icon" type="image/png" href="/assets/android-chrome-192x192.png" sizes="192x192"><link rel="icon" type="image/png" href="/assets/android-chrome-512x512.png" sizes="512x512"><link rel="icon" type="image/png" href="/assets/favicon-48x48.png" sizes="48x48"><meta name="application-name" content="\\xc2\\x90"><meta name="msapplication-TileColor" content="#ffffff"><meta name="msapplication-TileImage" content="/assets/mstile-144x144.png"><meta name="msapplication-square70x70logo" content="/assets/mstile-70x70.png"><meta name="msapplication-square150x150logo" content="/assets/mstile-150x150.png"><meta name="msapplication-wide310x150logo" content="/assets/mstile-310x150.png"><meta name="msapplication-square310x310logo" content="/assets/mstile-310x310.png"><meta name="google-site-verification" content="j-mSdyEVDJu6NlkkmeX0X002Q0i_XKRXQA_4Fb0YNIz"><meta name="msvalidate.01" content="2A9EAE6441044CA61F6FCAD3454E70A6"><meta name="googleTagManagerId" content="GTM-PZG8HQ7"><script>

        <div class="whitespace-normal text-base line-through opacity-50 override:text-puma-black-300 override:opacity-100" data-test-id="price">¥9,999</div>
```

**4. Original price of product:**

The screenshot shows a Jupyter Notebook window titled 'Untitled1 (autosaved)'. The interface includes a top bar with the Jupyter logo and a menu bar with options: File, Edit, View, Insert, Cell, Kernel, Widgets, Help. Below the menu is a toolbar with icons for file operations, running, and code execution. The notebook contains two code cells.

**Cell 1 (In [39]):**

```
ori_price=[]
for i in range(0,len(price)):
    ori_price.append(price[i].get_text())
print(ori_price)
```

The output of this cell is a list of prices: ['¥10,999', '¥9,999', '¥9,999', '¥8,999', '¥7,999', '¥7,999', '¥7,999', '¥6,499', '¥6,499', '¥7,999', '¥7,999', '¥7,999', '¥5,499', '¥5,499', '¥4,999', '¥4,999', '¥4,999', '¥4,999', '¥4,299', '¥4,299', '¥4,299', '¥4,499', '¥5,499', '¥2,499'].

**Cell 2 (In [49]):**

```
discount_priceSoup.find_all(class_="whitespace-nowrap text-base text-puma-red font-bold")
print(discount_price)
```

The output of this cell is the HTML source of the elements found by the BeautifulSoup query. It shows a series of `<span>` tags with the class `whitespace-nowrap text-base text-puma-red font-bold` and a `data-test-id` attribute. The text content of these spans represents the prices, with some values being red in the original image.

## 5. Discount price of product:

## **Conclusion:**

*As we commemorate the one-year anniversary of Puma Shoes, we extend our sincerest gratitude to our valued customers who have made this journey exceptional. To express our appreciation, we are thrilled to unveil an exclusive anniversary offer—a generous 35 to 50% discount on all Puma shoe purchases. This celebration is not just about a year gone by, but a step forward into many more stylish and comfortable strides together. We invite you to indulge in this limited-time offer as a token of our thanks, making every pair of Puma shoes not just footwear, but a testament to the shared journey of fashion, innovation, and the joy of walking in style. Here's to stepping into the future with you! 🎉👟*

**Thank you...**
